
PERCONTA CONTOVIT Value Counter

 **SCAN COIN**

The PERCONTA CONTOVIT has been developed to speed up your coin processing. It handles and verifies up to 2,500 coins per minute in two currencies in up to 17 denominations, whereas most other value counters on the market are limited to 600-800 coins in the same time. You soon notice the difference.

Accuracy in action

Apart from being a fast worker, the CONTOVIT is renowned for having the highest possible accuracy in counting mixed batches of coins. It is also exceptionally accurate for off-sorting counterfeit, foreign or damaged coins.

Competitive performance

PERCONTA CONTOVIT offers several competitive features such as freely programmable stop amounts, automatic coin feed, noise reduction lid, RS 232 interface for external control, quick-change coin transport mechanism and various memory levels. The remote display allows the customer to follow the counting without having to stay close to the machine.

Extra door for using coin tubes.

Sorting mode of up to nine denominations at high speed.

Clear and user-friendly display.

Accepts both bags and tubes.

Easy operation

The machine is easily operated from a clear and logical display – designed to perfectly suit the needs of the operator. A wide space between the outlets makes it easy to change bags. An automatic coin feed and a cover reducing noise and dust are other examples of classic PERCONTA ergonomics.

Desktop efficiency

The PERCONTA CONTOVIT is designed for desktop use. There is no need for space-consuming stands or special furniture. Just place it where it suits you best and from day one the CONTOVIT is a convenient working partner.

Flexible choices

The PERCONTA CONTOVIT is recommended for volumes higher than 20,000 coins per day. If you do not need such a high capacity, please contact us and we will help you find a solution that suits your needs.

TECHNICAL SPECIFICATIONS

WIDTH	553 mm / 21.8"
DEPTH	367 mm / 14.4", 413 mm/16.3" incl. outlets
HEIGHT	306 mm / 12.0"
WEIGHT	32 kg / 70.5 lbs
VOLTAGE	230 V/50 Hz, 115 V/60 Hz
POWER CONSUMPTION	approx. 120 VA
SPEED	Up to 2,500 coins/min.
DIAMETER RANGE	16.1-31.0 mm (standard)
	Special diameters on request
THICKNESS RANGE	1.0-3.2 mm (standard)

Founded in 1966, SCAN COIN is one of today's leading suppliers of cash processing equipment, system solutions and services. Our worldwide customer base is served through a network of SCAN COIN companies and distribution partners covering some 120 countries. SCAN COIN develops, manufactures and markets equipment and integrated solutions for handling banknotes and coins, and has become a world leader in the automatic cash processing market. In 2004, SCAN COIN acquired the well-known German PERCONTA range of money counting and sorting systems.
