The changing concept

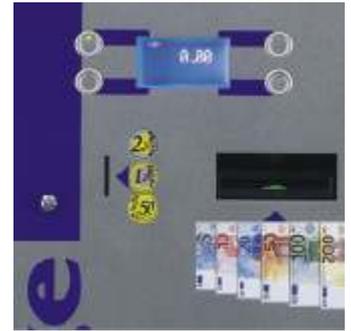

- The multitalent
- New operating concept
- Menu guidance by means of four keys and display

money changing systems | stand systems
counting machines | cash machine systems | service machines
customer-specified solutions

Highlights

- **The multi-talent**
All the functions of a money changing system due to a modular design concept
- **New operating concept**
All deposit and dispensing openings are located in the centre of the money changing system
- **Menu guidance by means of four keys and display**
Function of the keys is shown on the display for the customers or technicians

System set-up

- **LC-display and 4 illuminated multifunction keys made of metal**
make optimum interaction with the money changing system possible; regardless of whether as a customer or operator
- **Selection of the banknote acceptor**
JCM UBA 10 5,- to 50,- £
JCM EBA 30 5,- to 20,- £
- **Coin acceptor**
WH 820 or NRI G40
Resorting of one coin denomination possible, all other coins are routed to the mixed money cashbox
- **One to four hoppers**
for dispensing coins and/or tokens, three hoppers can be equipped with very large top units, resulting in a maximum possible money stock of 30,000 EURO (15.000 coins)
- **MiniMech banknote dispenser**
It is also possible to change coins back into banknotes with the banknote dispenser by DeLaRue in a special base cabinet

System functions

- **Change banknotes into coins and / or banknotes**
- **Change coins into coins and / or banknotes**
- **Purchase of jetons / tokens**
- **Personnel accounts**
