# Transform Your Cash Handling

The high costs of cash operation together with increased competition within the retail sector makes it more important than ever to optimize the business. The CashComplete™ RCS Solution transforms your cash handling into smart cash management, improving your business at all levels. Paired with our unique suite of software the RCS Solution is a strong back-office solution for any market. Explore true cash management with increased customer service and security through a complete cash handling solution.

## Turn Cash into Real Value

The RCS Solution is a powerful automator for your back-office operations. The cash recycling with CIT integration optimizes the level of cash in-store and decreases the need of services and manual labour dramatically. Make this the smart solution part of your daily operations and decision makings, instead of spending hours on administration and counting. In this way you can keep the focus on the true value of your business – the customers.

## Efficiently Cycle Cash All Through Your Business

The steady flow of cash into your back office needs to be counted, allocated and secured quickly and efficiently. With the RCS Solution you take control of your cash through an efficient cash cycle all the way around, from internal cash handling to CIT operations. The processing of cash is fully automated including creating floats at the beginning of the day to counting cash and reconciliation of the daily takings.

The Simplest Process Can Be the Most Revolutionary

Real-Time Data. Mobile Device Friendly. Automated.

## The Flexible Multi-Till Solution

The Multi-Till Solution is giving the retailer freedom to use existing Tills already used in store together with the RCS-400 coin recycler solution. The Multi-Till Solution is able to handle the most common Tills available on the market\*. It optimizes the dispense operation by having the coins sorted into the correct pockets, which saves valuable time and minimizes the risk of wrong coin in wrong pocket.

Patent Pending

### The Multi-Till Solution optimizes valuable time in the store

When the Till is inserted the dispense operation starts automatically by a sensor activation. This avoids the risk of having coins being dispensed inside the machine without the presence of a Till. The coins are dispensed parallel with the notes. When notes are ready and taken out of the RCS-700 the Till is ready to be taken out of its position and the cashier is ready to start working! When the RCS-400 2.2 is in deposit mode the Till compartment is closed and coins are available to be sent to transport box when needed.

CashComplete™  
Connect

## Superior Financial and Operational Control

The RCS Solution works with the CashComplete™ Connect management software. It allows access to data by local departments and from remote locations. CashComplete™ enterprise software can be used for central monitoring and connects with external stores systems for even higher efficiency. Our software solutions are scalable, allowing you to gain full control of your cash management operations.

- ✓ ERP Integration
- ✓ Report Generation
- ✓ Financial control
- ✓ Automatic Reconciliation
- ✓ CIT Integration
- ✓ POS Integration
- ✓ Optimised availability
- ✓ Connect 24 hours/day

## Features and Benefits

- Streamlined Cash Management
- Improved In-store Cash Flow Management
- High Cash Security
- Issuing automated floats/banks
- Optimized CIT deliveries and pickups
- Counterfeit detections
- Reduced cash handling costs
- Secure, fast & accurate processing
- Reduced shift turnover time
- Faster reconciliation
- Customizable Multi-Till system

\* If your Till is not presented in the document 5004836-000 please contact the SUZOHAPP office for a proposal for the adjustment.

**Effective Management**  
With its recycling capacity of up to 16,000 coins and 8 denominations

**Banknote Recycling**  
The RCS-400 2.2 is designed to be associated with a Bill to Bill or a MDS for processing and recycling banknotes

**Large Capacity, Secure Storage**  
The "overflow" box increases the total capacity from 5,500 coins to 21,500 coins, which are stored within the safe

**Electronic Locks**  
Facilitates management of back-office processing

**Design**  
Low working height and light indications make the RCS-400 2.2 one of the most user-friendly solutions on the market

**The Software Platform**  
The RCS-400 2.2 is connected to the CashComplete™ Connect Intelligence software for optimal management of your money

**Distribution of Coins**  
The distribution of cash is made easy by depositing change in a carrying case

**Better Technology**  
Our unique innovations make our recycling solutions some of the most reliable on the market

**Proven Technology**

**Flexible Multi-Till Solution**  
The Till dispense function is optimized to have the correct amount of coins in each pocket, this will minimize spillage and coins to be carried in other ways
